

ALONZO COB STRIP LIGHT

COB LED strips are a type of LED strip lights that directly package chips on the circuit board (PCB), then drop a layer of glue mixed with phosphor powder on the surface of chips. Manufacturing COB LED light strip eliminates the wire bonding process of SMD chips and soldering brackets compared with SMD LED strip lights production, it greatly improved the stability of the high density LED strip and better heat dissipation. LED COB strips are very flexible since their diodes are smaller and placed closer together, so spotless LED strip can curve into tight areas or fit around corners

PRODUCT ADVANTAGES AND FEATURES

- ◆ High density LED, no shadow
- ◆ Uniform lighting
- ◆ Extremely flexible

Products parameter

Product Name :		ALONZO COB STRIP LIGHT	
Electric Data	Model Number :	R841905	R842010
	Power :	5W/Mtr	10W/Mtr
	Chip Qty :	480pcs/Mtr	320pcs/Mtr
	Input :	24 DC	
	Dimmable :	Yes	
	Cutting Unit :	50mm	
	Driver Options :	On/Off /0-10V / Dali / Zigbee / Triac Dimmer	
Photometric Specifications	LED :	COB	
	Lumens :	550lm/Mtr(5W)	1000lm/Mtr(10W)
	Colour Temperature :	2700K 3000k 4000K 6500k	
	Colour Rendering Index :	CRI>90	
	SDCM (Color Tolerance)	<5	
	Beam angle :	180°	
	Temperature range :	-20+50° C	
	Housing material :	Double layer electroplating	
	PCB Width :	5mm	
	Protection class :	IP20	
	Life time :	30000Hrs	
	Package :	5Mtr - Maximum Length	
	Size in mm :	L5000xW5mm	L5000xW8mm
