

SALVO RGB COB STRIP LIGHT

The Versatile COB Strip boasts a unique dot-free design, creating clean lines of light whether used with or without aluminum extrusions. It's an excellent lighting solution for both residential and commercial applications. The strip features a clean line of 480 LEDs per meter. The cut point can be either 20 mm or 50 mm, providing flexibility in installation. COB LED strips are a type of LED strip lights that directly package chips on the circuit board (PCB), then drop a layer of glue mixed with phosphor powder on the surface of chips. RGB LED COB strips are very flexible since their diodes are smaller and placed closer together, so spotless LED strip can curve into tight areas or fit around corners.

PRODUCT ADVANTAGES AND FEATURES

- ◆ High density LED, no shadow
- ◆ Uniform lighting
- ◆ Extremely flexible

Products parameter

Electric Data	Product Name :	SALVO RGB COB STRIP		
	Model Number :	R844114		
	Power :	14W/Mtr		
	Chip Qty :	480pcs/Mtr		
	Input :	24 DC		
	Dimmable :	Yes		
	Cutting Unit :	50mm		
Photometric Specifications	Driver Options :	On/Off /0-10V / Dali / Zigbee / Triac Dimmer		
	LED :	COB		
	Lumens :	RED 175Lm/M	GREEN 493Lm/M	BLUE 106Lm/M
	Colour Temperature :	2700K 3000k 4000K 6500k		
	SDCM (Color Tolerance)	<5		
	Beam angle :	180°		
	Temperature range :	-25+60°C		
	Housing material :	Double layer electroplating		
	PCB Width :	10mm		
	Protection class :	IP20		
	Life time :	50000Hrs		
	Package :	5Mtr - Maximum Length		
	Size in mm :	L5000xW10mm
